

## Unit 2.2: Online Safety

- **Attachment:** A computer file sent with an email.
- **Digital footprint:** The information about a person that exists on the Internet as a result of their online activity.
- **Display Board:** In Purple Mash, this is a tool that enables you to share work with a wide audience.
- **Email:** Messages distributed by electronic means from one computer user to one or more people.
- **Filter:** A feature of search engines, where a user can filter results according to criteria. For example, news, date published.
- **Identifying:** It's important that any information shared online doesn't have details that can identify someone such as their name and address.
- **Internet:** A way to send information from one computer to another anywhere in the world using technology such as phones, satellites and radio links.
- **Personal information:** This is information that is personal to someone. For example, their favourite food, their name and age.
- **Private information:** This is personal information that should be kept secure. For example, their date of birth, their full address, credit card numbers.
- **Protection:** Some places like schools, have systems in place that help to protect users from harmful content. However, it's important that anyone using online services should always behave carefully to help protect themselves and others.
- **Reply:** When someone receives an email, they can send a reply using the reply button.
- **Search:** Look for information (in a database or the World Wide Web) using a search engine.
- **Secure:** Users online should take steps to help keep their personal and private information secure.
- **Sharing:** Post or repost (something) on a website.
